COLLECTION SYSTEM SPECIALTY WORKSHOPS

Less Risk, More Rewards When Managing California's Sewer Systems

Today, sewer professionals are under extreme pressure from all angles; new regulations, delayed maintenance, impacts from the record drought and now sudden storms. CWEA along with the State Water Board present this workshop to work together on issues.

Don't miss a 1-hour discussion with State Water Board leaders about the upcoming revisions to the WDR. What would you change?

Join your fellow sewer professionals and State Regulators for an in-depth discussion of SSMPs, as well as enforcement actions and ideas for new approaches to managing risks. These workshops are an amazing chance to learn, network and ask questions to get ahead of all of the looming challenges the industry is facing. These sessions are a great opportunity for your facility's up-and-coming team members to prepare them to start thinking as leaders of the future.

After attending this workshop, participants will be able to:

- Describe trends and findings from recent SSMP enforcement case
- Utilize specific strategies for handling an enforcement inspection
- Identify how to handle NGO lawsuits
- Apply the latest best practices for SSMP refinement and updates

Who should attend:

- Agency leaders
- Collection system leaders
- Sewer workers interested in advancing to supervisor/management
- Engineers and support staff
- Regulatory affairs staff
- Local regulators

Wednesday, January 10th
Tsakopoulos Library Galleria

828 I Street
Sacramento, CA 95814

Earn up to 6 CWEA contact hours towards Collection System Maintenance, Environmental Compliance Inspector, Laboratory Analyst, Mechanical Technologist and Electrical & Instrumentation recertification.
