

SOCAL LAB WORKSHOP SERIES: IMPLEMENTING TNI

Best Available Practices for Implementing TNI 2016 Rev 2.1 Standards

This is a series of 6 SoCal workshops. You can attend as many as you would like.

The speaker will present the TNI 2016 Standard, Rev 2.1 along with a summary of key points. A copy of the TNI 2016 Standard, Rev 2.1 will be projected on the screen for individual clause training with an emphasis on troublesome requirements for small laboratories during the implementation phase. Best practices for aligning with the Standard in a small laboratory will be presented. Tools and resources for efficient implementation will also be discussed.

Each attendee must bring their own copy of the TNI 2016 Standard, Rev 2.1, to follow along and take notes. A power point presentation summarizing key points and challenges for small laboratories will be provided as part of the training material for session 4. Pages from the TNI 2016 Standard, Rev 2.1 of the clauses planned for discussion with notes will be provided. We'll facilitate open discussions and questions.

Learner outcomes

- Provides an overview of the TNI 2016 Standard.
- Offer a system for implementing the TNI 2016 Standard.
- Give detailed training for V1 M1 (PT programs), V1 M2 Laboratory Management, and V1 M4, M5, and M7 (chemistry, microbiology, and WET).
- Detailed training will entail: learning the organization of the TNI 2016 Standard and its logic; understanding key definitions; being clear on the Standard's use of words; useful forms or tools to keep copying costs down; and best practices or equivalent options will be discussed for implementation.

Presenter: William (Bill) Ray

Bill is Owner/President of William Ray Consulting, LLC, a consulting firm specializing in technical and compliance assistance to the environmental lab community. He has over 45 years of experience in the lab profession. He has developed training tools; conducted training, laboratory assessment, and provided assistance in reviewing regulatory compliance from the laboratory perspective.

Earn up to 5.5 CWEA contact hours towards Lab and ECI certificate holders.
