What's in it for you?

Reduce SSOs

Ok, no guarantees, but you'll have a running start with our SSO WDR training that we offer as part of our Memo of Agreement with the State Water Board. That's the MOA that gave the industry extra time to comply.

Improve your safety record

All right, we can't guarantee that either but you've got to admit it makes sense that the better trained you are the less likely you are to have accidents. CWEA offers hundreds of hours of training every year throughout the state designed just for you. That's good for you and your employer.

Make your brain 9,000 times bigger

You've heard the expression "Two heads are better than one." How about 9,000 heads? You can learn and share solutions when you link with fellow CWEA members who give you the power of their experience when you're trying to solve a problem or figure out a new situation.

Save beaucoup bucks

Save \$\$ with the technical tips, tools, and processes you can pick up from award-winning wastewater treatment plants. And, the average member saves more than \$500 with CWEA member discounts on certification and training...available only to members.

Be a rock star

Get certified by CWEA in one or more of 6 wastewater vocations. And, get recognized for your good work with free entry in 20 award categories.

Get good stuff for free

Only members get free 24/7 access to our 20 certification study guides on our website. Only members get free access to our new Wastewater Utility Branding Manual on our website to help your agency generate powerful, consistent messages about the good work you do.

Save the environment and have fun

CWEA folks know how to work hard, be professional, save the environment...and have fun, too. Most of CWEA's 17 Local Sections have annual picnics, barbecues, golf tournaments, banquets, and more to spice up their regular training calendar.

Show the world how cool you are

What's could be cooler than saving the environment? CWEA gets the word out to the world by funding and promoting Sewer Science, No Drugs Down the Drain, Kids in the Creek, the PBS documentary Liquid Assets: The Story Behind Our Water Infrastructure, World Water Monitoring Day, and our new Wastewater Utility Branding Manual (free online for CWEA members only).

Ready to join?

CWEA's Board of Directors is glad to welcome you. Contact us to help you get to the most out CWEA or just to let us know how you're doing...and how we're doing.
