

CWEA Membership

What's in it for your employer?

Better compliance

Ok, no guarantees, but employers will have an edge with the SSO WDR training we offer through a Memo of Agreement with the State Water Board. That MOA gave the industry extra time to comply.

Fewer accidents

All right, we can't guarantee that either but it makes sense that better trained staff are less likely to have accidents. CWEA offers hundreds of hours of affordable training every year throughout the state designed specifically for wastewater treatment professionals.

Bigger workforce

You've heard the expression "Two heads are better than one." How about 9,000 heads? CWEA members learn and share solutions when they link with fellow CWEA members who offer the power of their experience when you're trying to solve a problem or figure out a new situation.

Human Resources Support

Staff retiring? New positions opening up? Our Jobs Available postings help employers reach a target audience of certified, capable, committed professionals.

Supplier contacts

CWEA members include equipment manufacturers, consulting engineers, and other key partners.

Training department

CWEA serves as a training department for employers, offering training workshops, seminars, and conferences every year throughout the state. Programs are designed and delivered by subject matter experts who know what your folks need to know to be even more effective on the job.

Certified competent staff

CWEA certifies competence in six wastewater vocations so employers...and the public...can be assured that they keep themselves, the public, and the environment safe.

A voice with regulators and the public

CWEA works with other wastewater associations to connect with regulators to provide wastewater expertise as new regulations are being developed. And, we get the word out to the world by funding and promoting Sewer Science, No Drugs Down the Drain, Kids in the Creek, the PBS documentary Liquid Assets: The Story Behind Our Water Infrastructure, World Water Monitoring Day, and our new Wastewater Utility Branding Manual (free online for CWEA members only).

Saving money

Employers save \$\$ with the technical tips, tools, and processes CWEA members pick up from award-winning wastewater treatment plants, CWEA training, CWEA publications, and fellow members.

CWEA does collectively what individual employers just can't do all alone...All this for 36 cents a day for CWEA membership!

California Water Environment Association

Protecting our water environment through education and training.

Have questions?

CWEA's Board Directors work for a broad range of organizations—small to large, public to private. Their employers find value in supporting their CWEA membership and their participation as a volunteer. Contact them to learn why.
