

CWEA Students & Young Professionals

Do you know any
Students or Young Professionals?

If so, please forward this e-mail to them.

Students & Young Professionals – We are creating a database in order to provide you with updates and activities you can participate in through the California Water Environment Association (CWEA).

We are a not-for-profit association of 8,000-plus professionals in the wastewater industry. We are committed to keeping California's water clean.

We train and certify wastewater professionals, disseminate technical information, and promote sound policies to benefit society through protection and enhancement of our water environment. We offer services at the state level and locally through our 17 geographical local sections. If you're not a member of CWEA yet, please visit www.cwea.org for more information.

If you'd like to be added to our database, please send a reply e-mail with either **STUDENT or **YOUNG PROFESSIONAL** next to your **NAME** in the subject line to cwea-sypc@googlegroups.com, and we would be more than happy to add you to our e-mail list.**

Coming Up: Information on the **CWEA 2009 Annual Conference**, including student paper abstract submission guidelines and special Student & Young Professional activities for the conference, will be coming soon!

Don't forget to e-mail cwea-sypc@googlegroups.com to receive more information!
