

The CALIFORNIA WATER ENVIRONMENT ASSOCIATION
 IS PROUD TO ANNOUNCE THE
MANUAL OF GOOD PRACTICE
for
AGRICULTURAL LAND APPLICATION
of
BIOSOLIDS

The Chapters of the Manual of Good Practice are:

- Chapter 1 - Introduction,
- Chapter 2 - Generator Management Practices,
- Chapter 3 - Transporter Management Practices,
- Chapter 4 - Applier Management Practices,
- Chapter 5 - Grower Management Practices, and
- Appendices.

This Manual of Good Practice has been prepared under the direction of the Biosolids Manual of Practice Sub-Committee of the California Water Environment Association Biosolids Committee. Over 40 experts from throughout the United States have contributed to the development of this Manual. Funds for the development of this manual were generously donated by agencies concerned that biosolids land application be done right.

Copies of the Manual may be obtained from the CWEA office by completing following form for credit card purchases and Faxing it to 510-382-7810 or by enclosing a check and sending the form and check to:
