New Tour:
Full Day Tour of Water Systems in the Desert
7:00 am – 4:30 pm Tuesday April 16 Pre-Conference
Earn 9.6 Contact Hours
$75 member discounted rate • Lunch included

A once in a lifetime tour of several Southern California water systems. Coachella Valley Water District in conjunction with Desert Water Agency supports 110,000 domestic and agricultural users.

New Tour:
Collection System Maintenance & Rehabilitation Street Fair
This hands on demonstration will provide participants with a unique opportunity to see, feel, hear and smell a myriad of new and proven collection system maintenance and rehabilitation products and equipment. A half mile of sewer pipe and several manholes will be the stage for vendors to perform demonstrations of their wares. Each station will offer guidelines for optimum applications.

New Seminar:
Cutting Edge Wastewater Technologies
• Operator Gimmicks & Gadgets award winners
• J. Craig Venter Institute - Microbial Fuel Cells For The Treatment Of Sludge
• WEF/WERF LIFT Program: Accelerating the Adoption of Innovative Technology
• Panel Discussion: Innovating Our Way Out Of The Non-Dispersibles Problem

More Sessions: Operator, Maintenance & Safety
• A Review of Online Nutrient Analyzers for Process and Compliance Monitoring
• Safety Considerations in Purging Gas Systems - Case History
• The Journey Towards Maintenance Excellence
• Training the Next Generation of Operators
• Operations of the Future
• Effective Coaching and Discipline
