Certification Preparation Session Tools & Tips for Preparing

Prepare for your upcoming CWEA certification exam by participating in this interactive session. Our trained moderators will share how to use the many resources and tools to get you on the path to your certification.

You’ll review the CWEA Path to Certification and delve into the knowledge, skills and abilities (KSA’s) that make up the core of your vocation and have the opportunity to use the newly developed KSA Gap Analysis Tool to identify areas to focus on during your studying.

Numerous and diverse sample questions will be reviewed as your moderator guides you through the highlights of your vocation. You’ll be able to develop your own action plan tool for you to use throughout the day to track your action items and plan your next steps.

You’ll leave this workshop with a better idea of what areas you need to focus on as you prepare for your exam, including some new tools:
