PRE-CONFERENCE WORKSHOPS
Tuesday, September 9, 2014

PUMPS, VALVES, AND DIGESTER GAS ACCESSORIES HANDS-ON WORKSHOP
(9:00 AM to 3:00 PM) Earn up to 6 Contact Hours
$99.00 Member Rate/$255 Regular Rate, Lunch not included

Pumps, valves, and digester gas accessories are some of the most commonly used equipment in our industry. This workshop will review some available options and their application. Speakers will use cutaway models of the equipment to facilitate discussion, to review maintenance and to provide troubleshooting tips.

Speakers: Tom Hendrey, Whitley Burchett and Associates Inc.; John Mohr, Shape Inc.; Roger Sadlo, R2 Engineering Inc.; Jeremy Rogers, JM Squared Associates; Mickey Schriefer, M-I-C Inc.

21ST CENTURY LEADERSHIP STRATEGIES
(9:00 AM to 4:00 PM) Earn up to 7.2 Contact Hours
$99.00 Member Rate/$255 Regular Rate, Lunch not included

Traditional leadership strategies are having a harder time gaining traction in today's continually disrupted world. It calls for a new way of looking at leadership at both the organizational and personal level. By looking at common everyday activities and decisions, we can discover secrets about ourselves and our leadership styles that we never knew before. Come see how our immersion in media such as pop culture and gaming is affecting how we see the world and each other.

Speaker: Shelly Alcorn, Alcorn Associates Management Consulting

TECHNICAL TOUR
Tuesday, September 9, 2014

Anhewser-Busch Brewery and Fairfield Suisun Sewer District Technical Tour
(9:00 AM - 4:00 PM) $85 Earn up to 7.2 Contact Hours. Lunch and transportation included.

The tour will begin with the Anheuser-Busch Fairfield Brewery that has recently begun treating its beer-making wastewater through a new “Bio-Energy Recovery System” (BERS). The BERS system involves use of an anaerobic digester to treat wastewater and produce methane. Energy from this methane is used to meet 10-15% of the Brewery's power needs. BERS also significantly reduces the organic loads discharged to the Fairfield Suisun Sewer District. The group will also get to tour the brewing process. After a brief lunch break (lunch will be provided) the group will visit the Fairfield Suisun Sewer District that operates a 23.7MGD advanced secondary treatment plant serving a population of 135,000. The picturesque plant occupies about 150 acres, and includes a new $11M Ultraviolet disinfection system. Recycled water from the plant irrigates adjacent turf farms or is discharged to the Suisun Marsh—the largest remaining brackish water marsh in the nation. Fairfield Suisun Sewer District also employs several alternative energy strategies, including cogeneration, solar power, and wind turbines. Buses will pick up and drop off in front of the DoubleTree Hotel.

GUEST SPEAKERS
Wednesday, September 10, 2014

Ignite Session (8:30 AM to 9:20 AM)

Before taking part in the engaging technical sessions, join colleagues at the Ignite Session on Wednesday, September 10th from 8:30-9:20AM in California Ballrooms 1&2. The Ignite Session is an opportunity for conference attendees to participate and actively explore how the tide is changing in our industry. Participants will hear from successful water quality professionals on how to engage, connect and learn to create excellence and a sustainable future within the water and wastewater industry.

Speaker: Simon Watson, CWEA President, Brown and Caldwell
Additional Speakers TBD
